MEETINGS

This architectural floor plan illustrates the layout of a house. The main entrance leads into a large living room (LIVING) measuring 4.30m by 4.50m. To the left is a dining area (DINING) with a table and chairs. A kitchen (KITCHEN) is located at the rear of the house, featuring a sink, a stove, and a refrigerator. A central staircase provides access to the upper level. On the right side, there is a bathroom (BATH) and a walk-in closet (W.C.). The bedrooms are located on the left and right wings. The master bedroom (M.BED) is a large room with an en-suite bathroom (E.BATH) containing a bathtub and a shower. There are two additional bedrooms (BED 2 and BED 3), each with its own set of dimensions and door locations. Various doors are indicated throughout the plan, leading to different parts of the house and the outside.
