

A new era of suburban living for Melbourne's West

Every home is within walking distance of a park, a park and neighbourhood can be accessed by various walkable routes.

Woodlea is a community designed for easy living. One of the most significant elements here is the way residents can move around their community, accessing public transport, wide open spaces, green pedestrian linkages and local shops and services with as much ease as possible. Connecting residents to all the amenities within and around Woodlea is a key driver for all planning.

The final vision for Woodlea sees it as a major asset for the entire district with notable sporting facilities just minutes from your new home. Upon completion Woodlea will include Australian rules football ovals, cricket and soccer fields, plus tennis and netball courts, all benefitting from pavilions and seating, change rooms and additional facilities.

- Precinct Structure Plan Boundary
