Rawson Homes Pty Ltd considers safety in every aspect of your home, from design through to handover. During the construction phase, all components, including those that are at a height of 3.0 metres or more, can be completed safely due to Rawson Homes strict policies, work methods and safety controls. However, once the finished house is handed over to the client, Rawson Homes can no longer ensure the safety of any person that needs to maintain any components (for example, but not limited to, light fittings, fixtures, antennas or gutter cleaning). The client must be aware that the maintenance of any components that are at a height of 3.0 metres or more, will require the implementation of adequate safety control measures and the service of a qualified person that is trained in safe work at heights.
