Design Your Own Lifestyle.

At Hayfield, you have an exclusive opportunity to have a home landscaped as soon as you move in. We have curated four distinctive garden styles for each resident to select from for their new Hayfield home.

Step 1. Contact Us

Once you have received your COO (Certificate of Occupancy) and all builder materials have been removed from site, you can coordinate the installation of your designer front garden. Simply contact us at landscaping@hayfield.com.au with your contact details, address and lot number and selected garden style to commence the process.

Step 2. Getting Started

A pre-start meeting between the Owner / Contractor / and Hayfields representative will be arranged to confirm the scope for the works including; chosen garden style, planting selections, access requirements, agreed set-out marked on the ground and any particular requests (must be within scope) and timing for construction.

Step 3. Construction

Works are to be constructed within two weeks after the pre-start meeting. All communications during construction and establishment will be between the Contractor and Owner.

Step 4. Establishment

The contractor will advise of completion and arrange a meeting with Owner / Contractor / and Hayfields representative so that all parties can sign-off on satisfactory completion.

Step 5. Handover

Two weeks after completion the contractor will arrange a final meeting with Owner / Contractor / and Hayfields representative so that all parties can sign-off on handover to the Owner.

“Australian Informal”

5. SUNSET GRAVEL

6. RAISED PLANTING EDGING

7. SANDSTONE STEPPERS

8. SANDSTONE BOULDERS

9. WINTERGREEN COUCH

NOTES ON PLANT PALETTE:

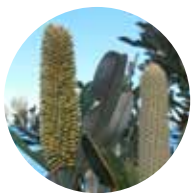

Proposed plant mixes for different garden styles are suggested as a guide and are flexible depending on personal preference. Lot Owners can select plants from any of those listed, however there is a set number of Feature Trees, Feature Plants, Shrubs and Groundcover pots allocated for each garden style which cannot be exceeded. This set number of plants allocated does also vary between garden styles depending on other elements allowed for in each garden. Final plant selections available for installation will also depend on nursery availability at time of ordering. For some more expensive Feature tree species 25L pot sizes are specified rather than the standard 45L pot size to offset additional cost.

Plant Palette

1. FEATURE TREES

Lemon Scented Myrtle

Coastal Banksia

Ivory Curl Tree

Weeping Bottlebrush

Summer beauty

Blueberry Ash cultivar

Brown Silky Oak

Lemon-scented Tea Tree

Water Gum

Golden Penda
